## How to get the right fit

To measure your clothing size follow these instructions:

- **1. CHEST**

To get the right size run a flexible tape measure across the fullest area of your chest, holding the tape measure horizontally.

- **2. WAIST**

Measure around the narrowest part of the waist, keeping the tape horizontally.

- **3. HIP**

Stand with your feet together and measure around the fullest point of the hip, keeping the tape measure horizontally.

## Choose the right size

That's easier said than done. Because, what do you do if you are in between two sizes?

Well, that's up to you. Do you like a tight fit? Go for the smaller size. Loving a loose fit? Go for the larger size.

**Top fit:** If your body measurements for chest and waist result in two different suggested sizes, order the size from your chest measurement.
